

SEMINAIRES IJB

Vendredi 16 mars 2018
ICPM - Salle de réunion de Chimie

Magnetic material applications with van der Waals density functional
and other developments and applications in density functional
approach

Prof. Tatsuki Oda

Institute of Science and Engineering, Kanazawa University, Japan

11h00

Theoretical study on association/dissociation process of plastocyanin
with cytochrome f in photosynthesis

Prof. Hidemi Nagao

Institute of Science and Engineering, Kanazawa University, Japan

14h15
